

Fastbit II

Fastbit II

Precise, Versatile use, Ergonomic

Fastbit II is the key cutting machine from Silca to duplicate bit, double bit, pump, mail box, central stop and special keys.

Its compact design, high-quality materials and operative details have been engineered to respond to the needs of key cutters who want to be equipped with a user-friendly, precise, reliable and long-lasting machine or are just approaching the duplication of these specific key types.

Fastbit II

Fastbit II is the key cutting machine from Silca to duplicate bit, double bit, pump, mail box, central stop and special keys.

With the dedicated original optional accessories, continuously updated, you can enlarge the range of copied keys including keys with vertical cuts.

Fastbit II has been designed and manufactured in conformity with CE mark European standards.

Technical Data

Motor: Single phase and speed

Power supply: 230V - 50Hz

Movements: by ball joint on rectified carriage

Cutter: High-speed steel (HSS)

Runs (maximum length of cuts): 42 mm

Dimensions:
Width: 400 mm
Depth: 460 mm
Height: 300 mm

Mass: 15,4 Kg

Precise

Thanks to its micrometric tracer point, the reading of the original key is fast and highly precise. In addition, the operator can adjust with ease depth variations, often needed with worn keys.

Spring loaded tracer point

Versatile use

The revolving, 3-sided clamps make it easy to block a broad variety of keys without the need of optional accessories: bit, double bit, pump, central stop, mail box and special keys, such as Abloy®, Abus®, Luma® and Ava Chubb® key types.

Ergonomic

Spring loaded tracer point, anatomic handles and levers and tilting clamps for perfect key rounded cuts make the use of Fastbit II comfortable and ergonomic.

Anatomic handles and levers

Safe

Protective carter and integrated brush for key cut finishing made of a special non-abrasive material secure the user's safety. The machine features a ramp allowing chippings to easily fall into the dedicated, removable swarf tray, conveniently located below the base for a neat and orderly working station.

Working Area

Thanks to its compact dimensions and clean-cut design, Fastbit II is fit for small-sized shops.

Silca Warranty

Made exclusively with select materials and components, it is meant to be a long-lasting tool in your key cutting business, guaranteed by the CE mark.
